github.com/Maha557

Developed and trained deep learning models using Python, Tenserflow and PyTorch. Preprocessed and validated large-scale medical imaging datasets. Evaluated model performance using classification metrics and validation techniques. Integrated trained AI models with a FastAPI-based backend for inference. Worked with multimodal AI concepts, model optimization, and AI deployment workflows. Passionate about solving real-world problems using AI and eager to contribute to innovative projects while continuously learning and expanding technical expertise in this field.

Technical Skills

AI / ML	**Data Preprocessing**
Model Fine-Tuning | Evaluation	**Deep Learning**
Model Testing / Training	**API Integration**
AI Model Deployment	**NLP Fundamentals**
Multimodal AI Systems	**Docker | CUDA**
Python / C++ / OOP	**OpenCV**
Pytorch	**Tensorflow**
CNN Models	**Scikit-learn**
matplotlib / seaborn	**numpy / sympy**
Turtle	**FASTAPI**
Git and GitHub	**UI/UX design**
HTML / Tailwind CSS	**React Comp / Next.js**

Soft skills

Problem-Solving	**Team Collaboration**
Leadership	**Time Management**
Analytical Thinking	**Microsoft Office**
Documentation	**Punctual**

Education

Nov 2022 - Jun 2026

Bachelor of Computer Science
University Of Narowal
CGPA 3.02

Projects

Oct 2025 - Jun 2026

AI-Based Bone Abnormality Detection Using Medical Imaging

- Developed and trained deep learning models using Python and PyTorch.
- Preprocessed and validated large-scale medical imaging datasets.

- Evaluated model performance using classification metrics and validation techniques.
- Integrated trained AI models with a FastAPI-based backend for inference.
- Worked with multimodal AI concepts, model optimization, and real-world AI deployment workflows.

Github Link:
https://github.com/Maha557/Bone-abnormality-project

Skin Disease Detection and Classification Using Deep Learning

Developed a deep learning model to detect and classify 8 different skin diseases from labeled skin images. Preprocessed and augmented labeled image datasets for improved model performance. Built an interactive Streamlit application for real-time disease prediction. Evaluated model performance using accuracy, precision, recall, and F1-score.

Responsive Image Gallery Website

Developed a responsive image gallery using HTML, CSS, and JavaScript. Implemented image filtering/categories for improved user experience. Designed a clean and user-friendly interface following responsive web design principles.

Banking System Project Using C++ and Opp Concepts

- Designed database structure and Managed customer records
- Performed data validation
- Generated reports from stored data
- Applied object-oriented programming concepts.

Network Architecture (Cisco)
Designed secure and scalable banking network

Additional practice projects and demonstrations are available on my LinkedIn profile

Publication

Khan, M. N., Shahzadi, M., Qadri, A. R., Nazar, S., Habiba, U., & Nazir, Z. (2026)
"*Bone Abnormalities Detection Using Medical Imaging*"
Spectrum of Engineering Sciences.
https://doi.org/10.5281/zenodo.21062147

- **Contribution:** Co-authored a peer-reviewed research paper on AI-based bone abnormality detection from X-ray images using EfficientNet-B0, ResNet-18, GradCAM++, and explainable deep learning techniques for fracture and bone tumor classification.

Experience

Freelance Academic & Technical Support

- Researched datasets and technical information.
- Created Excel reports and presentations.
- Organized and validated client data. Maintained documentation with high accuracy.
- Delivered projects within deadlines.

Jan 2026

Video Editor

Short and Long Game and Product Videos

Certificates

Jun 2026

AI for Writing and Communication
Offered By Google from Coursera

- Studied ethical considerations and best practices in AI-driven content creation.

Jun 2026

AI Fundamentals
Offered By Google from Coursera

- Explored machine learning techniques such as supervised and unsupervised learning.

Activities

- Continuously improved technical skills through projects and online courses
