## PROFILE SUMMARY

Computer Science graduate with hands-on experience across both web development and artificial intelligence. Skilled in building responsive web interfaces with HTML, CSS, JavaScript, and React, as well as developing and training deep learning models using Python, TensorFlow, and PyTorch for real-world applications such as medical image analysis. Completed internships in both domains, reflecting a versatile and fast-learning technical profile. Passionate about solving real-world problems through technology and continuously expanding expertise across the web and AI stack.

## WEB DEVELOPMENT SKILLS

- HTML
- CSS
- JavaScript
- Tailwind CSS
- React.js / Next.js Components
- Responsive Web Design
- RESTful APIs
- UI/UX Design
- MySQL
- Git and GitHub

## ARTIFICIAL INTELLIGENCE & MACHINE LEARNING SKILLS

- AI / ML Fundamentals
- Deep Learning
- Neural Networks / CNN Models
- Data Preprocessing
- Model Fine-Tuning & Evaluation
- Model Testing / Training
- AI Model Deployment
- NLP Fundamentals
- Multimodal AI Systems
- PyTorch
- TensorFlow
- OpenCV
- Scikit-learn
- FastAPI
- Docker | CUDA
- NumPy / SymPy / Matplotlib / Seaborn

## PROGRAMMING & TOOLS

- Python
- C++
- Object-Oriented Programming (OOP)
- Debugging
- Agile Methodology
- Visual Studio

## PROFESSIONAL SKILLS

- Problem-Solving
- Analytical Thinking
- Team Collaboration & Leadership
- Time Management
- Documentation
- Email Writing & Professional Tone
- Discipline & Punctuality
- Microsoft Office (Word, Excel, PowerPoint)

## EXPERIENCE

**Freelance Academic & Technical Support** | *Self-employed*

- Researched datasets and technical information.
- Created Excel reports and presentations.
- Organized and validated client data.

- Maintained documentation with high accuracy.
- Delivered projects within deadlines.

**Python Development**

- Used Python as the core language across major academic and professional work, including the Final Year Project (AI-Based Bone Abnormality Detection) and the AI Internship at Devnexes Digital Solutions.

## PROJECTS

**AI-Based Bone Abnormality Detection Using Medical Imaging** Oct 2025 – Jun 2026

- Developed and trained deep learning models using Python and PyTorch, preprocessing and validating large-scale medical imaging datasets.
- Evaluated model performance using classification metrics and validation techniques, and integrated the trained AI models with a FastAPI-based backend for inference.
- Worked with multimodal AI concepts, model optimization, and real-world AI deployment workflows.
- GitHub: github.com/Maha557/Bone-abnormality-project

**Skin Disease Detection and Classification Using Deep Learning**

- Developed a deep learning model to detect and classify 8 different skin diseases from labeled skin images.
- Preprocessed and augmented labeled image datasets for improved model performance, and built an interactive Streamlit application for real-time disease prediction.
- Evaluated model performance using accuracy, precision, recall, and F1-score.

**Responsive Image Gallery Website**

- Developed a responsive image gallery using HTML, CSS, and JavaScript, implementing image filtering and categories for improved user experience.
- Designed a clean and user-friendly interface following responsive web design principles.
- GitHub: github.com/Maha557/Image_Gallery

**Banking System Project Using C++ and OOP Concepts**

- Designed the database structure and managed customer records, performing data validation and generating reports from stored data.
- Applied object-oriented programming concepts throughout.

**Network Architecture (Cisco)**

- Designed a secure and scalable banking network.

*Additional practice projects and demonstrations are available on my LinkedIn profile.*

## EDUCATION

**Bachelor of Computer Science** **CGPA: 3.02**
University of Narowal | 2022 – 2026

**Intermediate (Computer Science)** **Grade: A+**
Aspire College for Girls, Narowal | 2020 – 2022

**Matriculation (Science)** **Grade: A**
Royal Grammar School for Girls, Narowal | 2018 – 2020

## CERTIFICATES

**Artificial Intelligence (AI) Internship** | *Devnexes Digital Solutions* Sep 2026

- Completed a 1-month remote internship training in Artificial Intelligence (AI), demonstrating consistent learning dedication, active task execution, and successful completion of assigned project milestones.
- Certificate No: DNX-CERT-2026-9237 | Issue Date: September 18, 2026

**Frontend Development Virtual Internship** | *CodeAlpha* Jul 2026 – Aug 2026

- Successfully completed the CodeAlpha Virtual Internship Program in Frontend Development, demonstrating dedication and sincerity throughout the program.

- Duration: 20th July 2026 to 20th August 2026 | Student ID: CA/DF1/209808

**AI for Writing and Communication** | *Google (via Coursera)* Jun 2026

- Studied ethical considerations and best practices in AI-driven content creation.

**AI Fundamentals** | *Google (via Coursera)* Jun 2026

- Explored machine learning techniques such as supervised and unsupervised learning.

## PUBLICATION

Khan, M. N., Shahzadi, M., Qadri, A. R., Nazar, S., Habiba, U., & Nazir, Z. (2026). "Bone Abnormalities Detection Using Medical Imaging." Spectrum of Engineering Sciences.

- Co-authored a peer-reviewed research paper on AI-based bone abnormality detection from X-ray images using EfficientNet-B0, ResNet-18, GradCAM++, and explainable deep learning techniques for fracture and bone tumor classification.

## ACTIVITIES

- Continuously improved technical skills through projects and online courses.
